

RUNNING REHAB PROGRAM

- A gradual progressive running program to progress from jogging to sprinting & playing sport after lower limb injury.
 - WARM UP – Jog until sweating, leg stretches, & your specific loading exercises.
 - Run day on / day off - not 2 days in a row.
 - Complete a level without pain / pulling / tearing / tightness / worsening, & with no swelling or soreness on the following day, before progressing to the next level. If you have pain during a stage, or pull up sore the next day: stop, ice, take a full 24 hours off & re-attempt the same level again.
 - **50M** = accelerate 10M / @ pace for 30M / decelerate 10M
